Dates (Adopted/Revised)	Guide Words
Adopted August, 1973 Revised November, 2004 Revised June, 2007	Courses Curriculum

The Pocatello/Chubbuck School District is committed to providing rigorous and relevant educational programs and curriculum offerings for students that are research based and meet state standards and student interest. Thus, over time, new educational programs and course offerings will be introduced, others may be expanded, and others may be phased out. New and expanded educational programs and course offerings must be reviewed from a resource perspective in order to ascertain the viability of the program/course and the district's ability to sustain the program/course. The Superintendent is directed to develop a process for adding and/or expanding educational programs and course offerings. Said process is to be documented in the Pocatello/Chubbuck School District Curriculum Handbook.
